POPCORN CEILING SOLUTION

AWAKE® Track

Strong and Flexible Profile System

AWAKE Fabric Ceilings & Walls

Stretch Fabric Ceilings are supported by a lightweight and durable AWAKE® track system (also known as a perimeter profile) that mounts to walls and ceilings.
We offer two types of AWAKE® track:
The **AWAKE® Universal** track can be used to mount textiles to both ceilings and walls, while the **AWAKE® Wall** track mounts only to the wall to support ceiling installations.

Both tracks allow fabrics to be removed and replaced, providing an easy and cost effective re-installation option.

System is custom-fit to different wall and ceiling configurations and is installed in 2 steps:

1. Perimeter Track is attached to the walls or ceilings continuously around the room.
2. Stretch Fabric Ceiling membrane is tucked into the track creating a tight,

Technical Specifications
